

Population Health Management Dashboards

ANMD-MRS12-120 · Digital Health & Clinical AI Technologies

A Global Sustainability Due Diligence & Market Research Study

History 2020–2024 · Base Year 2025 · Forecast 2025–2032 · Outlooks 2035 / 2040 / 2050 · Currency US\$

WHY THIS REPORT

Population health management (PHM) dashboards aggregate clinical, claims and social data to stratify risk, close care gaps and drive value-based care across patient populations — spanning risk-stratification, care-gap and quality dashboards, value-based-care analytics, social-determinants (SDOH) and predictive population AI. This decision-grade study sizes the global market three ways — value, deployments and covered lives — across analytics function, deployment and application, across seven regions and four scenarios to 2032, with outlooks to 2050.

SUSTAINABILITY & SDG IMPACT — THE ANMD LENS

The sustainability case here is social and systemic — and central to health equity. PHM dashboards can target resources to underserved populations and close care gaps, while raising data-governance and fairness questions.

Mapped Sustainable Development Goals:

SDG 3 Good Health & Well-Being	SDG 9 Industry, Innovation & Infrastructure	SDG 10 Reduced Inequalities	SDG 12 Responsible Consumption	SDG 17 Partnerships for the Goals
--	---	---------------------------------------	--	---

Measurable sustainability outcomes assessed:

- Targeted intervention and closed care gaps
- Improved quality scores and managed cost of care
- Equity-focused, whole-person management
- Allocation fairness, data privacy and equity-of-access as material risks

Framework alignment: Double materiality mapped to GRI, SASB, ISSB, TCFD, TNFD, CSRD and the EU Taxonomy, with greenwashing and SDG-washing screens applied throughout.

WHAT'S INSIDE AT A GLANCE

53 Chapters	9 Report Parts	7 Regions Covered	40+ Country Markets
2025–32 Forecast Horizon	4 Forward Scenarios	20+ Companies Profiled	5 SDGs Mapped

REPORT COVERAGE

Geographic scope: North America, Europe, Asia Pacific, Latin America, Africa, Middle East and Rest of World — with named country intelligence. North America leads value-based care; Europe scales on national systems; Asia Pacific grows fastest; other regions assessed on their own merits.

MARKET OVERVIEW

From reporting to care orchestration — where social-determinants data unlocks whole-person management.

Population health management is moving from reporting to predictive, action-oriented care orchestration. Demand is driven by value-based-care adoption, health-equity goals and risk-bearing models across North America, Europe and Asia Pacific. The market is read three ways — value, deployments and covered lives — and forecast under four scenarios, each region reported separately.

- **North America leads value-based care** — United States, on accountable-care organisations, risk-bearing payers and large PHM-platform adoption
- **Europe scales on national systems** — the UK, the Nordics and the Netherlands, where population-health and integrated-care models drive uptake
- **Asia Pacific grows fastest** — China, India and Australia, combining public-health digitisation with chronic-disease management needs
- **Social-determinants integration is the differentiator** — combining clinical, claims and SDOH data unlocks equity-focused, whole-person population management

REGIONAL OUTLOOK

Across seven reporting regions, the report separates leading markets from high-growth and emerging ones — each profiled in full rather than aggregated into Rest of World.

Region	Stage	Lead Markets & Drivers
North America	VBC leader	United States, Canada — reimbursement, FDA pathway, enterprise EHR scale
Europe	Integrated-care scale	Germany, France, UK, Netherlands — EU MDR/AI Act, national health systems
Asia Pacific	Fastest growth	China, Japan, India, South Korea, Australia — digital-health investment
Middle East	Strategy-led	Saudi Arabia, UAE, Israel — digital-health strategy, sovereign investment
Latin America	Emerging	Brazil, Chile, Mexico — telehealth growth, access gaps
Africa	Frontier	South Africa, Egypt, Kenya — access expansion, mobile health, blended finance

KEY MARKET DRIVERS & RESTRAINTS

Drivers	Restraints
• Value-based & risk-bearing care models • Health-equity & SDOH focus • Chronic-disease & care-gap management • Claims-clinical data integration • Predictive population-health AI	• Data integration & interoperability gaps • Value-based-care adoption pace • Data-quality & SDOH-completeness limits • Privacy, consent & data-sharing rules • ROI-attribution & funding constraints

SEGMENTATION SNAPSHOT

By Analytics Function	Risk-stratification · care-gap & quality dashboards · value-based-care analytics · social-determinants (SDOH) · predictive population AI
By Deployment	Cloud SaaS · on-premise · payer / provider-hosted
By Application	Hospitals · clinics & outpatient · home / community
By End User	Hospitals · health systems · payers · clinicians · patients
By Scale	Departmental · enterprise · health-system / national
By Business Model	SaaS subscription · per-use · managed services

TABLE OF CONTENTS — PARTS & CHAPTERS

The full report is organised into nine parts across 53 chapters, listed below. Detailed sub-headings, country tables and directories are provided in the full report.

Part I — Report Foundation, Discovery and Strategic Intelligence

- › Chapter 1. Scope, Methodology and Report Architecture
- › Chapter 2. Industry Discovery Summary — Population Health Management Dashboards
- › Chapter 3. Executive Intelligence and Decision Dashboard
- › Chapter 4. Strategic Findings, Materiality and Investment Verdict Preview

Part II — Market Intelligence, Sizing, Forecasting and Segmentation

- › Chapter 5. Industry Overview and Market Evolution
- › Chapter 6. Market Dynamics
- › Chapter 7. Global Market Size and Forecast, 2020–2032
- › Chapter 8. Market Segmentation Analysis
- › Chapter 9. End-User and Demand-Side Intelligence
- › Chapter 10. Pricing, Cost and Commercial Model Intelligence

Part III — Regional and Country Intelligence

- › Chapter 11. Global Regional Intelligence Framework
- › Chapter 12. North America Market Intelligence
- › Chapter 13. Europe Market Intelligence
- › Chapter 14. Asia Pacific Market Intelligence
- › Chapter 15. Latin America Market Intelligence
- › Chapter 16. Africa Market Intelligence
- › Chapter 17. Middle East Market Intelligence
- › Chapter 18. Rest of World Market Intelligence

Part IV — Technology, Innovation and Category-Specific Intelligence

- › Chapter 19. Technology Landscape and Architecture
- › Chapter 20. Emerging and Next-Generation Technology Intelligence
- › Chapter 21. Category-Specific Intelligence Module
- › Chapter 22. Research, Innovation and Funding Landscape

Part V — Company, Competition, Patent and Project Intelligence

- › Chapter 23. Competitive Landscape
- › Chapter 24. Company Profiles
- › Chapter 25. Mergers, Acquisitions, Partnerships and Ecosystem Intelligence
- › Chapter 26. Patent Landscape and Intellectual Property Intelligence
- › Chapter 27. Project, Deployment and Case-Study Intelligence

Part VI — Sustainability, ESG, SDG, Climate and Natural-Capital Intelligence

- › Chapter 28. Sustainability Intelligence Suite
- › Chapter 29. ESG Intelligence and Double Materiality
- › Chapter 30. ESG and Sustainability Framework Alignment
- › Chapter 31. SDG Intelligence
- › Chapter 32. Carbon, Net-Zero and Climate-Mitigation Intelligence
- › Chapter 33. Water, Biodiversity and Natural-Capital Intelligence
- › Chapter 34. Circular Economy and Resource-Security Intelligence
- › Chapter 35. Social Impact, Human Capital and Community Intelligence
- › Chapter 36. Climate Risk, Adaptation and Resilience Intelligence

Part VII — Supply Chain, Policy, Legal, Economics and Finance

- › Chapter 37. Value Chain, Supply Chain and Geopolitical Intelligence
- › Chapter 38. Policy, Regulation and Incentive Intelligence
- › Chapter 39. Legal, Contracting and Risk-Allocation Intelligence
- › Chapter 40. Unit Economics, CAPEX, OPEX and Return Analysis
- › Chapter 41. Investment, Sustainable Finance and Bankability Intelligence

Part VIII — Scenario, Future Intelligence and Final Due Diligence Verdict

- › Chapter 42. Scenario Analysis and Future Intelligence
- › Chapter 43. Sustainability Due Diligence Framework and Data-Room Index
- › Chapter 44. Risk Register, RAG Rating and Anti-Greenwashing Screen
- › Chapter 45. Bottom-Line Verdict and Strategic Recommendations
- › Chapter 46. Implementation Roadmap and Stakeholder Playbooks

Part IX — Annexes, Directories and Reference Material

- › Chapter 47. Methodology Annex
- › Chapter 48. Corporate Directory and Company Intelligence Annex
- › Chapter 49. Patent Directory and Patent Intelligence Annex
- › Chapter 50. Project Intelligence Annex
- › Chapter 51. Forecast Annex
- › Chapter 52. Sustainability KPI Annex
- › Chapter 53. Reference Annexes

COMPETITIVE & INVESTMENT SNAPSHOT

The competitive field spans dedicated PHM-platform specialists, healthcare-analytics providers, EHR-embedded modules, and payer-integrated players. Deal activity — value-based-care partnerships, SDOH-data integration and platform consolidation — signals a market consolidating around predictive, equity-focused population management.

Representative players profiled in the full report:

Innovaccer Inc. · Health Catalyst, Inc. · Arcadia.io · Epic Systems Corporation (Healthy Planet) · UnitedHealth Group Incorporated (Optum) · and further profiled players across PHM-platform specialists and payers.

Investment intelligence: venture, infrastructure, development, climate and blended finance, green bonds and sustainability-linked loans — culminating in a bankability assessment and a conditional investment view.

KEY QUESTIONS THIS REPORT ANSWERS

- How large is the global PHM dashboard market, and how fast will it grow to 2032?
- Which regions, countries and segments offer the strongest risk-adjusted opportunity?
- How does SDOH integration change value versus clinical-only analytics?
- Who leads, and where is the competitive and patent white space?
- Is the investment case bankable — and under what conditions?
- How does the category align with the SDGs, health equity and data-governance expectations?

WHY ANMD — THE DIFFERENCE

Most market studies stop at units and revenue. This report is built as a sustainability due diligence instrument — fusing market sizing with ESG, SDG, climate, water and natural-capital intelligence and a decision-ready bankability view in a single architecture.

- **Triangulated sizing** — every market read three ways so value, volume and the physical-unit views reconcile rather than conflict.
- **Region-honest forecasting** — Latin America, Africa and the Middle East reported in full, never hidden inside Rest of World, every forecast resolved to the 2025 base year.
- **Integrated evidence base** — company, patent and project databases linked to the analysis, with published-filing patents and FTO treated as an indicator, not a legal conclusion.
- **No-fabrication discipline** — every estimate carries a data-confidence rating and disclosed sources; gaps are flagged for further diligence, never filled with invented numbers.
- **Anti-greenwashing rigour** — SDG-washing and greenwashing screens plus claim-substantiation checks built into the ESG and project analysis.
- **Decision-first structure** — 9 Parts and 53 Chapters culminating in stakeholder playbooks and a clear, conditional investment view.

WHO SHOULD BUY THIS REPORT

Investors, OEMs, health systems, payers, clinicians, lenders and policymakers, and strategic corporate planners and decision-makers.

Access the Full Report

The complete report delivers all 53 chapters in full, with every sub-heading, country table, company and patent directory, forecast model and due diligence checklist.
